LEATHER AND FINDINGS

Another Installment of the Thesome Dispute

LEGATE MAKES AN EXPLANATION Clarkson Responds that the Kansas Gentlemen will

TOPKKA, Ks., Jun 21 -A letter is to be or b order to show whether or not he was the huckster of St. John in the recent political campaign. The letter reviews the matter at great length, and is to the following effect. The writer opp seet St. John's candidacy on the national tackst, and endeavored ubsuccessfully to persuade him toot accept the nomina low. He then hid a out ference with a number of St. John's frieur staknass, and endeavored in cet St. John's takenses, and endeavored in cet St. John is taken to the second to the staken to the second to the seco

Continuing, Legate says he met Elkins and asked han if he was acquainted with his (heaste's) mission Elkins said yes, but could do nothing until the arrival of Onio men. Lega e went back to his friends and told them he helieved the republicans wanted to get St Joln out of Ohio He friend left for Kansas in great went back to his friends and told them he believed the republicans wanted to get St John
out of Ohio His friend left for kansas in great
disgust, agressing, however, if the matter was
fixed up, to join with his Triends in a dispatch
to St. John to cene to kansas
Later Legate met St. Jubn in the office of it e
New York Hanss and told him the possibilties of a canvase in Kansas were ended that
their friend had become offended and gore
home St. John replied "Well, I am really
grad of it, for though I would have gone hone
with you and made the canvasa. I believe the
welfare of prohibition lies in the future rather
than in the present." Continuing, st. John said
the believed if Blame was elected the whisky interests would be nurtured If Cleveland was
elected he would follow the expressed will of
the people. If the republican party was defeared it would dishingtrate, and the temperance
element form a party hat night soon become a
power. He said further that he would carry
out the appointments that had been male out
for tim.

I egate returned home and met quite a nun
ler of man who were part is to the original ar
rangen ent and they reproached him for failing
to Larry the plan through, compelling them to
spend money in the state canvas. When he
wrote Clarkson the latter marked "confider,
that' he did not exp. I Curkson to send them
mones but make so ne—eply to satisfy these
men that he (I egate) had not been playing a
game with them—tarkson wollated the confideuce expressed in Curimant by publishing
the letter, and willfulf interpressued, for he
knew it at the wird

positi ii Every pane of glass in the house was an ist ed to atoms. The gallery benches were overti rised at d broken, and the gallery genersmantk d ليرزان

of P M—It has been iscovers that a large special ty of explosive matter had been placed in sade the great ornamental gas a feeling to the crypt under Westminster hall. These gates were blown relear off their hunges and thrown to the ground. All the wind was in the north and south sades of the building were blown to atoms.

IMMENSE DAMAGE DONK.

atoms.

Immense damage of the building were bewn to atoms.

A hady visiting the house of commors at the time of the outrage was sericusly injured. In mense, durings was done in the lobby. The nurson's decirations and sculpture were ultarly destroyed. The place is inscribed as literally blown to pieces. The shock was felt in Pall Mail, and persons in the viginity say the very earth shock.

Another account of the explosion a West minister hall sign if was more diseastrous than at first inficipated. Four persons were build in juried, including two policement, fatally wounded. A hady who was in the half spie I am inferial minchine, and called the aftertion of palitic man (ole, on duly at the time, for Officer Cole rushed to the seized the machine and calculation of the collection of the machine that the officer droppe in The explosion followed almost immediately after. Ope-half of the hill wis wrecked.

The explosion in the lobity of the fouse of commons occurred three immates liver. If come from directly under the stranger's gallery, and close to the seat usually occupied by Bradingh, when yishing the commons. To lothly was completely wrecked.

The TOWER VISTI D.

(Out Von Munster, German minister to For

The stole work displaced "THE TOWER VISHT D"

(out I on Munster, German minister to England, and the ord mayor of Lendon, visited the scene of the explosion at the tower this evening. It has been ascertained that the crown jeweds and regalla, which has been for a long time lepesited in the tower, are undamaged. The cuse of the explosion was preceded by a blunding flash, followed by great clouds or dust, Additional guards were placed to-night around the tower, the parliament houses and all public buildings. The glass toof of the house of commons was completely shattered. The clock in the house stopped at precisely 216 P M. A heavy beam, which formed one of the supports to the gallery, was projected into the supports of the support of the supports of the support of the supports of the support of the support

THE IMPRED. The number of those injured by the explosseriously and fourteen slightly, at the parliament buildings, four seriously and ten slightly. The worst injuries were received by constabilities (ox and Cale, and a civil enganeer named Crautisiting the parliament buildings. Cox and their recovery is

dopeless
More than 100 visitors were in the house o

More than 100 visitors were in the house of commons when the explasion occurred in Westminster brill. Most of them rushed out of the luilding, to ascertain the cause of the record, and thus many lives were saved. News of the introduction in the American corress of a bill by Senator Edminds to prevent and publish dynamite conspiractes in the United States has had the effect of turning aside the bitterness of feeling against America which had been end ingered by the explosions. The locality of the explosion in the house of commons is in deep shadow, and being directly under the gallery, the person who deposites the dynamite was thus much less likely to attract notice than in almost any other part of the librage.

t eyer, was carried to the place in each case concealed under the long cleak of a woman, whose appearance was true made to resemble that of a woman about to become a mother A woman in whom the appearance was very noticeable was seen among risitors of the tower this after nom, shortly before the explosion occurred, the was escorted by a tall man with a military air Neither of them could be found after the gries were closed after the explosion and when the visitors came to be searched. It is supposed the woman and escort escaped during the rush that occurred just after the explosion and be for the gates closed. The impotent action of the police is generally ridicated.

greatly lumented. It is believed one of the conspirators entered the crypt, passing the polcomain at the entrance, and deposited an infernamachine at the bottom of the steps. The
policeman removed the parce, which exploded,
making a bole an the floor three feet in diameter, it string the roor railings and survabing the
fron and lead work of all the windows in the
hall. The policeman's hair was singed and his
face burned. His clothing was form from his
body by the force of the explosion. He is still
alive, but no loops is entertained for his recovery.
A man and a woman who drove from the parflament building immediately before the explosion, and who were arrested on suspicion,
have been liberated, the swidence being insufficient to hold them.
The foundation of the hall is uninjured, but
the roof is badly damaged. The bases of the
status of William the Fourth and recorge the
kourth, which were overturned, are greatly in
jured.

An inspection of the parlia nent buildings today showed that, excepting the beautiful win
down everlooking the staircase at the south end
of Westmaster ball, scarce a pane of glass escayed destruction. The foundations of the
buildings were badly shaken. The roof of the
crypt, in epide of its mass ve strength, was
greatly damaged, fifs being visible bere and
there. The floor of the house of commons presents a stringe speciacle, being covered with
heaps of invision fragments. The elatorately
carved caken will be hind the sents benath the
gailery was completely flowen down. The
flooring of the stringers' and speakers gridler
ics is so form up that it is deep red unself to ven
fore across. The pure' gallery suffered the
most dan age. The side galleries and the retorters' gallery were not injured.

The jured which caused the first explosion
was very ped in brown cloth, and was two if it
long it one foot wide. One gentleman conjalans that the shock of the explosion broke one
of his blood essels. IN THE PARI LAMENT BUILDINGS

of his blood vessels

The queen sent a telegram to-day, inquiring as to the condition of the injured policemen (or und tole A reph) was sent, stating that both Mare progressing favorably. The greatest in dignation prevails throughout the provinces like explosions were referred to and denounced in at the churches to-day. THE DAMAGE GERAT

THE DAMAGE GFEAT

Mr C S Read, member of the house of comnons, to-day inspected the locality of the explosion in the partiament building. He says the
damage is immense. It will take months to rupair the injury.

Thousands visited the scene to-day, but were
not allowed to enter the building. Temporary
repairs have been ordered, to allow the house
of commons to meet February 19th.
Stricter regulations in regard to the admission
of visitors have been ordered to be taken in the
future. Policemen who were on data at the

GOV SQUIRE AT WASHINGTON.

Woman Suffragists Invade a Pulpit→Meeting of Washington, Jan 25 -The inter-state com

Bayard's resolution, expressing the sentiments

with the deliveral in monotor the late helpresent attwe Duncan of Piennsylvania.

The committee on appropriations expect to report the army and the poetoffice appropriation idlis in time to call them up Tuesday and Wednesday. It is the intention of the committee on rivers and harbors to ask consideration of the river and harbors to ask consideration of the river and harbors appropriation bill the latter part of the week. There is a disposition on the part of friends of various prominent measures now pending to antagonize appropriation bills. Hewitt (New York) will endeavor to call up the bill to carry into effect the provisions of the Mexican reciprocity treaty during the week, Townshead will press the Mexican pension bill, Stockslager the bill providing for public buildings throughout the country, Singleton the national library bill, and Willis the educational bill, at every opportunity.

A FREALMER'S FULL INVALUE.

WASHINGTON, Jan. 25 — Rev Dr Patton, president of the Howard university, preached a sermon in the Congregational church of this city to-day, on world an askepticism, in the course of which he spoke of the woman suffrage convention held here recently and expressed the relation that when woman are given too much

MEPTING OF DYNAMITEES AT CHECAGO

(INCAGO, Jan 25—The usual weekly meeting of socialists was held this afternoon. The meeting was presided over by a colored woman, wife of A. B. Parsons, a white man. Saturday's explosions in Lordon were the principal theme of discussion, and the speakers were unusually in ree and bloodt lirsty in their advocacy of the use of dynamite. The London explosions were characterized as a great advertisement of the power of the dynamiters it was said that it showed the ability of the socialists to go into large crowds, in broaddaylight, and explode their bombs with perfect safety.

One speaker, in reply to the objection that the use of dynamite caused the death of innocent persons, rad that the unocent must saider for the good of the great body. In the case of the London explosions, a machine was set off in the louge of lords first in order that a large number of persons in he house of commons might have time to escape in Another said that a little hog 5 grease and a stille little acid formed a very powerful compount. The cents worth would blow a building to atoms.

Another remarked that the body of a dead capitalist would serve the purpose as well as that of those. There were 5000 lines in this cap to those will how in their own kitchens for the price of a good dinner. It was will known that the whole of threago who knew how to manufacture dynamite in their own kitchens for the price of a good dinner. It was suggested that the body of a facad capitalist would serve the gurnose as well as that of those will known that the whole of threago who knew how the manufacture dynamite in their own kitchens for the price of a good dinner. It was suggested that the body of a facad capitalist would serve a farge of a good dinner. It was suggested that the body of a facad capitalist would serve a farge of a good dinner. It was suggested that the body of a facad capitalist would serve a farge of a good dinner in their own kitchens for the price of a good dinner in their own kitchens for the price of

"The present system of assessing personal to be an to be property," the major declares 'is notion, use less an inequitable, and he proposes that it be altogether abandoned. This suggestion was an seen adogated amounts in a suggestion was made some time ago and the propositish that only real estate be faxed was boldly and opening advocated Unites some way of passing an mon-claid law can be devised at is not improbable that the present inequitable system, pre-vailing in New York, of taxing those will will pay and not taxing those who avoid payment,

ill be abolished Under the system of assessment prevailing in tregon there is not so much disparity between the valuations of real estate and of person al prop-erty. It is probable, indeed, that personal property in our state tears more than its proper unate lunder of taxation, owing to the absurdly low valuations of real setate. The total value of land and town lots in the state of returned in 1882-4, was \$48,373,044, and improvements on the same were put at \$13,075,003, making a total of m_443,002. As the gross valuation of all property was given at \$103, 43,201, the personal property would amount to \$45,200,234. But the btedness which was returned at \$27 177 est was largely in the form of mortgages a pon real state, deduction of which, in its prepor-bonite share, would probably irrug the walus-tion of the real estate down partly to that of the personal property Now in fact this caunet possibly be a just proportion between he two forms of property and therefore it would seem forms of property and therefore it would seem that if real estate has to bear too much of the burden of taxation in New York, personal, the erty is required to bear too much in Oregon In our state realsy is undervalued, and all parts of our state realty is undervalued, and quite as much in Multnomah as in the other

EAST INDIAN WHEAT

The report of the United States consul at (a) cutta co lates all the available statistics reluting to the East Indian wheat crop for 1991 and places the amount at 244,000,000 bashels. This grain was raised on 25,000,000 acres of land. and the product was nine and one-third nucliely to the acre. The yield of American wheat for 1884 was \$20,000,000 bushels from 40,000,000 acres of ground or thirteen husbels to the acre For 1883, on less accurato reports from the wheat districts the crop in India was es in ited at 200 000,000 bushels or 40,000,000 bushels nore than for Is84

The primary market for East Indian wheat,

as the spots is the feading primary market for American wheat, is Delhi, a famous ind an city in the upper part of Hindostan Fron Delhi to Chentia, the point of export, is about 230 miles and probably part of the way the river Jumma is available for water carriage From the city in India, therefore, rapresenting to the Indian wheat industry the relation occupied by Chicago to the American wheat industry—to the city of export is about 300 miles further than from Chicago to New York, the principal American port of export for wheat After the wheaths at Calcutta it is two-cer thrice as far away from the European ma-kets as wheat is at New York. It will be seen that m he matter of distance to he transported Indian wheat is at a decided disadvantage as

compared to American wheat.

Consul General Leonard says that the best of han wheat delivere lat Delta is estimated at 1% cents a pound which is 183 cents a cental, or 80 cents a bushel. This estimate is made in view of the low cost of coolie labor. The cost of Deportation from Delhi to Calcutta is 24 cents per cental, or lan cents per trushel. The freight op wheat from Chicago to New York arerage 20 cents a cental or Lo cents a bushel 1 pon this showing the wheat of America that Ludi its way to Eur pe lirrough (Fig. 20 and New 10th can stand the Indrin competition On the sade well off, wing to the great eletance of sading routes. The suez canal makes Delhi nearly to lengt and than we are but if wer uid go the Nicaragu i canal the me quality would be nuch

The interesting fact is recorded in the ve cently jubished volumes of the Diary and o respondence of John Wisson (toker "that) o recon mended to the conservative party of Dag land that it should manifest something of the eral state to warf a reference sometime of the state of the forested franchises of G ampount and host Retford to the manufacturing ties He bal aved, and the event justified aim. that a reaser this literal and processal policy would have strengthened the defenders of the constitution, and that nothing is so fatal to a cause as persistent and narrow proscription. The example is one that may always be profit -all) heeded. The southern states of the Branz have antagonized their own interests by pre-scribing the colors I people.

 $\Delta(I-I)$ newspaper, commenting in the Shor I has a sessible and a says that questions regarding (Nithin Short always delicit therefore, also in the letter that the Americans discover for themselves what s et of miscre into their tolerance is fostering. There nose by no licacy about settling any question of extrad tion with may arise whenever the English authorities will I ring forward evidence the authorities will tring forward evidence that pur rous in the United States have been gaily of any extractulal fience. The dynamite fiends are as much abborred on this side of the M lantic as in Great Britain, and there wid be dispositive to shell them, whenever treat Britam will exhibit estience of their gul and Tilly for their surrender in the usual manner

Of the total number of banking usubicous with fuled styer deven were mainful twenty we state, all seventy seven were private banking concerns. This speaks well for the sour dress of the national bank system. It is also worthy of note that sixty-seven, or more one-balf the failures were directly or remotely due to so culation, a fact which calls for additional safeguards and restrictions upon the management of institutions which are largely of deposit for the funds of the widowanc

THE OTHER CINIETE GRANT

The blift or latur of the land grant of the Origin Contain off, which has at less become a law, was lived in [6] resugal the although containing the scale. The most important of these were proposed by Vir Doith, who is valid strike at the proviso in the longs to that the price of the lands for it assessment relatively relatively a training to the lander of the land de thit and could—then many other cut in he tuned in the property of order the returned fertival is as the first of order the returned fertival is as the first companies to the first to the first companies to the first the size of the size of the first the size of th the country and where shocks and bond in puriously services to be accumulating as app an inty and grant for the cumpleted portions of sul growing propert. Every effort has been red to correct this defect of the law and to divise some plan by which personal property can be assessed and taxed, but all these effor's two been in vain and hearly all the personal property. The present system of assessing personal "The present system of assessing personal property," the major declares "is pulsar, uses the first controlled within the limits of sul provide the cumpleted within the limits of sul providing the complete personal property. The provided within the limits of sul providing the limits of sul p in it, is now law or will be as room as signed by the president much to the relificting import-

The I rench sponation bill, which has passed both branches of congress, referring those came to the court of claims to examine and report to congress, is probably of little interest to the people of this region, beyond its mere historical interest. These claims are now over e ghts years old, lating from the beginning of the century In the war between England and France, after the downful of the French mon-ardly, American commerce and especially that of Massachuseuts and the district of Maine suffered grealy Merchant vessels were serzed by fered groady Merchant vessels were serzed by crussers of both helhgerents. Too weak then to go to war atout it, the united States protest ed and demanded indemnity. England recog-nized the chun and unit it i raines filed one in offset, which hat to be allewed By a new treaty chuns prior to 1860 were aban loned, but the country of the bettern constituted with the Trance paid for a solutions committed after that dute. The Union States government, in consulerain of favirs from France assumed the payment of the claims, but from that day to this has not paid them. Favorable reports have been prepared in congress by such men as Daniel Welster, Rufus Choate, Edwin Everett and Charles Sanuer Twee has congress passe? a bill only to be vetoed, the first time by Poil, and the second by Prerc. Thus time there

The delay in printing the reports of state officers, and the secure and house bills illustrates the disadvantage of brying the office of state printer established in the constitution. If the different state and legislature officers were at liberty to contrac for this printing where they could get it done most cheaply and promptly there would be none of this embarrassing delay All of the reports ought to be ready for distribution at the opening of the session. The treasurer's coordinate of the penitentiary, and although the legislature has been in session two weeks it is only within a few days that any of the bills have been printed One of the most important duties of the session is t provide for the state revenue, and to set intelligently on the subject the trens arer's report or get to be published before the session is half through

Many castern papers publish encouraging reports of tendencies towards a revival of business in their respective localities. The recent solling movement and the shutting down of production combined have reduced stocks of goods to a mu-imum, and created a demand which must lead to renewed activity. No boom is anticipated, that a wholeson e, stendy spring trade is anter-puted with a good degree of confidence. Sev-erul of the larges manufacturing establishments in the country are starting up again, after a period of idleness, and others are preparing to do so, in consequence of orders which are begin using to flow in front the trade

Mark Twain s fighting the booksellers. The firm of Lates & Laurat, of Boston, has been tampering with the agents so ling Twain's book and got it at a cost by which less give it to the world at lower relea than the regular price. It is not likely that Mark can follow all his agents, and more than the thore with his how how he and more than this those who hay books are on the side of the agents. But sold by subscripto n are too logh. The agents are paid by con musions and the publishing house by profits. We can forgue a little breach of trust which does away wit 1 so many maldlemen het ween a book and its purch her

The recent a tempt of the Southeestern rail way of (aun is to drive the United States and Canada Express Commun. from its lines by eve pet, was enjoine with ground that under the common law the rulway is a common carries and obliged to call all mode offered at research able rates and halfle rates I had exacte I were T is is h accordance with the decision n a rin dat cass (5 Judge De id)

"Wig do you not cheerfull, acquiesce in the widels I there expected party" using a demo-cratic reader. I scause it is the old party of slavery and of the rebellion, because it has been other his powe is the square transpersion in the beauties it as peculiarly, and because no one can point to a single thing it has done or attempted to conducing the last thirty years has even its own supporters will not confess has been wrong I ere, certainly, are

The general government has loomed at a credit for \$1,600,000 to the New Orlerus exposition, yet the exposition is a failure and there is a call upon congress for \$2.00,000 more. If some of the energy extended in the scuthern states during many years in making for idulent majorities in electrons had been devoted to legithrate in-dustry and fusiones, the exposition might not have been so fia a failure.

Governor Hill of New York justly believes that the people is sould have in opportunity of knowing the laws which they are required to the. Ignorance of the law is said to be no legal excuse for 1s violation, but it is a moral exc se. The statutes of a state should be easily intelligible to at d within reach of all.

The valuation of taxable property in this state in 1858 was \$22,54115. In 1862 it was \$19,58112. 30 and in 1860, 1861 and 1863 it was 88 12 30 and in 1806, 1861 and 1856 it was also less than in 188 It was less than thirty millions until 1868. It rose from a little more than forty-eight rillions in 1880 to nearly sixty mallions in 1881 In 1873 it was \$75,000,903

savings bank deposits have increased three i lat of in Pious in Mune during the past two your and dever influois in Massachusetts last you. I have to apple continue to lay something 1) even in fart times

The labious Diagnosis

'My ingodese of your case shows me sured the my hyseria, "the your constitution is become enfected in ingle occurred. You meet rest to form the try your wastely in gest a normal and healty a nitrative with tenness are you in the laby a nitrative masses are you in the property of the property of

The English exhibited dipartment is a ling ling. In white a to carrying and delivering the masts proper at door in general expressage business, operates all telegraph lines, takes care of the savings of the people, usures lives, and grants annulines. It does all these things and makes a handsome profit out of them.

Dr. Handey's Column.

THE SENATORSHIP.

SALEM, 24th Linuxes The accident which pestponed the first some trial tidlet has furned out a very locky in Had till election come in the appointed time it would have been a factional logit, full of latter 1 se, and thin steertamly it would have left the

The letter letter make from for a manufact a column for a manufact a column for, from the first who has been neither gage if a significant of a century in the grue matters and who thusk that there are good reasons to built se that the late depression in the first of when was occasive, and so crian to be succeeded by better range of prices.

One of the principal causes, it points out which has tended to drag down (rices is the being that nore wheat was he hing grown than was needed, and that the world was for to fave with overproduction here as in soming other departments. But this observed questions whether there is more whilt in there was a rear ago. There was certainly major in 1852 than there work to dray than there was a supplus care dover from the preceding crop, while socks were at it is beginning of 1884 early low. If ore has been, he master, no overlapping of crops, no immense accumulation of stocks, and there is not, he leaders, at the present more at nore wheat in any is uniter than is needed to meet the contingencies of the growing crops.

Wheat was depressed by the expection that Australia, and a normal neither law been large enough to depress prices, those from Latinate been failing away, and California him sent forward less wheat than in produces, ears. There was at the date of this communication—the end of the content of the previous years. There was at the date of this communication—the end of the content of the produce was continued to the produce year form ladia to the produce when the public about it were, he eye, of the most of the wheat crop of Lagland. The impressions given the public about it were, he eye, of the most or rondous charge informant is the corresponding to rod, and the crop has been have about more active to accreage which has been large and have a fair in the role of the previous year. There are now only 2.73(12) of the previous for the previous form and the world produce was not important to the first and t

mining in the hinds of the Eng sh farmers is small.

The gress imports of wheat and flour into the thirted kin, don were \$\psi (60000)\$ bushels less in the last juritor of lest ear thin in the similar part of less, and \$1.000,000 bushels less than in the same in of less. The quantity of justice and less than in the same in of less. The quantity of justice is given by \$1.000 bushels against \$7.312, 000 in 1883 and \$2.000 bushels against the correspondent of the fluxes as one of reduced imports, largely reduced stocks, with a much less quantity affect, reduced 1 reduction in England and other wheat-growing countries, with the certainty of increased consumption which grows with hiereasing population.

NOTES FROM WASHINGTON CITY.

WASHINGTON D. C. Da. 1 1885
After a struggele covering nearly teap years. We have least finally single to the laming this interestate communice until trangit the loom In many of its features the full is crude and in thad a descend comes on the supposition that it had a perfect the same of the supposition the judgment of those who are in a position to 15. The shape the list amough to the state of the control of the c

pricents and if not it the use of now will it to be deferred for another yar, somethought to be deferred for another yar, somethought to be content the for a moment.

Buring the past wee Sent to Dolph has reported upon a number of important in somes from the committee on public in to of watch you have no doubt been fully a based by telegrath. His report of the house built is reported to the molecularies and pre-emption is was quite took manuar, and is a doument that has charted much frienthle comment for the little got indeed to in perhensive manner with which the presentation of this report an intimate knowledge of our land have was requisited, and your correspondent has no fear of heary charged with dealing in his periods when he says that there are but few persons who could have teen physical that the reported the task in a manner so entire int. Same factory as the was performed by Mr. Bulgh. It order to perfect the laft of the fall, attain it a number of an all its fall, attain it a number of an all its week necessarily, in I there have the easy of its ends and the will be warded at (1 %) then have the constitution of the little in the measure will receive the area of its ends hands if the class it is not all the time and the will be warded at (1 %) then hands if the class it is not all the constitution of the little in the constitution is another of the substitution of the constitution is another of the substitution of the field of point will be substituted in the constitution of the constitution and another of the substitution of the constitution and another of the substitution of the constitution and another of the substitution of the constitution and another of the constitution of the fear will be substituted in the substitution of the constitution and the substitution of the constitution of the fear of the substitution of the fear of the substit

LOCAL AND GENERAL.

AN OVERDOUS OF LATE CLEEKS—One of the first thengs which attracts the attention of case of a visitors to the present legislature is the large number of young ladies seen thiring about the building and in and out of the various committee rooms of both houses—burry elects the information that these young ladies are clerked of committees, and por indeed is the committee and homely and unforturate the members thereof, which has not secured one or more or those clerks. The ladies appear to have come from the well as the appear to have come from the a wiff on the fold, and to have cutured the entire legislature. This is endence if the growth of asthetic tastes a long the men item, as even if the myority of the original origination of the fold of the foldies. The clerks, they are certainly ornational that the around and trip in and four quite noiselessly, but of course there is always more or less of bustle and has gamour so may be it in the analysis of the around and trip in and four quite noiselessly, but of course there is always more or less of bustle and has gamour so may be in the falles and the around and trip in and four first and the around and trip in and four first has a first the committees of the origination the foresaid to the chairmen of committees for requisition the aforesaid to turner "full right down" and give orders for reuns of payer, red rich, ruing jeen, infasted is, pearly indied pockethouses, each of the passenges that promises to speedily extrast the jsupplied provided and ultimately bankrupt the state flower or it is all right, as in a session or two in ore likes young ladies will be holding seats in the bouse and acting as committees on the passengers who were expect to smillipox at the passengers who were expect to smillipox at

Worthbom Imitations.

Beware of worthbom imitations and always mak for the host, Hemory Colory, Boet and Iron.

*Construet from Fir t Page] et nee i) the parliament bulloing stateda-state hat they examined parcels of all visitors that day with ut discovering righting of a suspinous character, and that not ody carrying a purel like the one descrifed as containing an exployee was seen to other the building Lobyl risking and her children had a narrow

an explosive was seen to enter the building
Lot) I rakine and her chillren had a narrow
estage from injury. They were funching in the
deputy as regantad-arms dining-room, which is
situat-d in St. Stephens' poich. The door of the
room was burst'open by the force of the explosion, and the center panel of another coor was
shattered. A mine-servand was blown across the
room, and the children were greatly to rified.

The u most precentions are being taken to
protect putche buildings, especiall the government off est, the general postoffice the central
telegraph office, and the railway stations. Suspictous travelers are narrowly witched. Search
parties t-day inspected all public buildings
from on to bottom.

The press association has informed the government that it has received a lotter en lesing a
plant of perature contemplated by the dynamiters and furushing descriptions of activementlers of the dynamic tection. Several important tuildings, which have lither to escaped,

portant tuildings, which have hitherto escaped, were, not ording to the above-mectoned letter, included in the scheme of destruction.

ANOTHER ARREST

States government to stop the operations of the dynan iters.

And her account of the same subject says. The war office has seldon been thronged on Sunday as it was to-day. More than 100 callers, including peers, members of the commons, and of the cabinet, and officers of the army. Many of the latter, who have been on a leave of absence, had traveled 100 miles, on hearing of the London explosions and the virtical condition of a fairs in Soudan, to ask for active service. All were singuring eagerly for news regarding stewards situation, but officials have no news o give.

Among the visitors were the mar just of Lorice and Princess Louise, the duke of Cambr dge and Mannia Hartington.

covered sufficiently to make a statement. It is stated that the police had found, where the first eated that the police had round, where the first explosion occurred, an article of peculiar nature, which they decline to describe — It is believed that this article will furnish a clue to the gully

A SLIGHT CLUB

tographed to merrow Colonel is satisfied dynam to was used slon. He says four crive pounds to cause the explosion. He says four crive pounds of the explosive, properly compressed, would only mean refuter five cubic inches, and could easily be roncealed in an overcoat pocket, or in the folds of a woman's drees. Tower officials believe a woman deposited dynamitie in the building. The police some time ago had feason to believe that a woman was constantly possing back and forth between America and England, for the purpose of importing dynamite. She was frequently watched, but evidence sufficient to watrunt her arrest was never obtained.

CANCHING THRRATENET

It is now learned that the mysteriou Irish man, who is described by the police as Cimingham, alms Daltot, all he dibert, and who was arrested at the tower yesterday, on suspicion of having been concerned in the explication at that pince, has not been released, but is still catained in the White Chappel police station. The guard in front of the station has been doubled, in consequence of the gathering of an enormous crowd of excited clitzens in Leman street, in the vicinity of the station. Loud curves and station are towardly tree, d, and there is no doubt that a desperate at empt would be made it fynch the prisoners if it were not for the presence of police and military. C miningham will be arraigned at the police court at in White 'hapel road to-morrow morning.

The man arrested on suspicion of connection with the explicion at the tower of London is described as an Irish American. He gave his consected dress. He had lodged some months in the vicinity of the tower. The man had 27 in gold in his pockets. He gave his name as Collingham, with the alases of "Gillbert" and "Dalton". LANCISING THREATENEY

An American assailer

An An Antican traveler, name unknown, was traveling a a train of the Northwestern railway going from Loudon to Liverpod, yesterday evening, when an excited discussion arose over America's responsibility for the dynamic explosions. The opinion was freely expressed that the United States was greatly to blame for har boring such men as O'Donovan Hossa. The American lefended his country in vigorous language, an i was attacked by a crowd of passengers. The American drew a revolver and kept his assailants at bay until the train reached chester, when he jumped from the carriage and escaped.

The explosion of yesterday caused the greatest excitement in Berlin, Vienna, Rome and

Paris

THY INJURED OFFICERS

Officer Cole had, several ribs broken and Officer Cox a suffring from concusion of the oran It as estimated that 100 persons were in the parliament building at the time of the explosion of three clocks in the lobby, the hands of the one ever the entrance to the induse officommons was alown out completely, the one on the left sade stopped, will the third, on the right side, was unit used bome of the windows in Westmuster hall were blown bodily away, while other were rid died as with short. The only atom of cours is tion to be found is in the fact that averal stained windows survived the ordeal tolerably well. None of the statues of the Stuart mod archs were injured "several minor disasters or curred in the "Poet's Corner," third, the breaking of ginsses.

steps have been taken in the right direction.

THE NEWS AT PARIS

PARIS, JET. 21.—News of the dynamite emplosions at London caused a profound sensation, sepsecually among English and German adjourners in the city. The English embassy has been besieged throughout the evening by anxious enquirers after the latest details. Dispatches from London were posted in the main reception room as fast as received, and builetin boards were constantly surrounded. Lord Lyons could not

be seen his evening, but us far as could be learned from affactives of the legitian there is no signoise but the fund in Puris, of whom James Ste shens is the leader were connected with the plot, and no special investigation will be ordered in this city.

The Election of Fracts

Not Yor. F.

With Fracts' election, att. net in this way, we may fairly hope for a we ping out of old factional crossons, a talancer g and closing of old scores, and a rearrangement of the dominant political cross in New York on new lines. We may tope, in fact, for the return of the republican tarly to its old estate, as a compact, aggressive, considered party of principle, disciplined by defract, purged of faction, recalled to the spirit and purpose of its better days, and set in order for its rest great struggle, the recovery of the state of New York by the election of a republican governor in 1880.

Worthbow Imitations. The Election of Practs

LONDON CONVULSED.

ANOTHPR ARREST
Steamers arriving at British ports are subpetted to minute search, in order to prevent the
importation of dynamics into the kingdom
Hand are steamers can especially watched
One man was arrested to-day it connection
with the explosion at the tower of London He
was taken to Scotland hard and examined, and
will prolably be charged at the Bow street police court to-morrow

The op nion is generally expressed that the time has arrived to put pressure on the United States government to stop the operations of the dynan items.

and Princess Louise, the true
Marquis Hartington
Cox in Cole, the injured policenten, have re-

Inspector Benning says that on bearing the second explosion he ran to the spot, and saw not a soil in the place. The estrance was licked by debris. He noticed a smell of sulphir and gunpowder. Cox and Cole, the believed, furnished certain descriptions which will lead to inquiries that may result in the discovery of the authors of the outrage. Colonel Majendie to-day made an inspection of the explosion at the tower of Londen, as well as the chaos would permit. The Martini rities, which hisd been hurled from "the stands, remained in confused heaps on the floor, and rendered impossible a near approach to the exact spot where the explosion occurred. The scene will be photographed to-morrow Colonel Majendie says he is satisfied dynam te was used to cause the explosion. He says four crive pounds of the explosion.
